**LITTER REGISTRATION
AMERICAN DOG BREEDERS ASSOCIATION INC.**

P.O. BOX 1771 - SALT LAKE CITY, UT. 84110 - (801) 936-7513 - WWW.ADBA.CC

• Before the litter can be registered both Sire and Dam must be ADBA registered, have a registered name on file and have ownership recorded in the current owner's name. • If the required information is not listed on the front of parents registration certificate, a Transfer of Ownership is needed or dogs registered name needs to be recorded with the ADBA registration office. • If Sire, Dam or both are not registered with the ADBA, you must apply for registration with a Single Registration Application. Paperwork (of Sire, Dam or both) must be processed before the litter can be processed. Completed registrations will then be sent to appropriate owner(s). If paperwork is to be sent to a third party, written permission must be given. • Be sure to list all pups, pups not listed on this form will be considered dead. • Pups over one year of age cannot be registered as a litter. They must be registered on a single registration application. • If Sire or Dam is less than 9 months at time litter is born or over 12yrs at time of breeding, DNA profile of parent and 1 pup is required. • **Be sure to mail all forms together to speed up registration process.** • **Photo of Dam with litter, required for registration.**

BREEDER If breeders name is to be placed in front of pups name, format is limited to breeders first or last name, or breeders name initials. Any other variation must be registered as an ADBA kennel name (See kennel app for details). **(No exceptions). Name your puppies carefully.** It is the policy of the ADBA that the registered name of a dog remains permanent, unless breeder's permission is given for change and the dog has never been bred. **Breeders Name** _____

If you prefer that the new owner name the puppy, assign each an alphabetical letter.

When listing the colors of your pups, please list the most dominant color first, the second dominant color second, etc. If the dog has white or black markings, list to basic color, (*Example white marks, or black marks.*) It is assumed that the nose color is black, unless listed otherwise. (*Example: red/ white marks/red nose*) - Or, there may be a gray nose in the case of a blue dog. (*Example: blue/ white marks/blue nose*)

Photos of colors with descriptions available at WWW.ADBA.CC

ACCEPTED TERMS TO DESCRIBE COLORS

White - white

Tan - light beige

Buckskin - tan with yellow tones

Fawn - tan with red tones

Dark fawn - brown with red tones

Brown - brown

Chocolate - can range from a dark chocolate to a light milk chocolate

Light Red - light red

Red - red

Blue - any shade of blue gray to gray blue from deep slate to light blue gray usually with a gray nose

Blues - portions of coat having a distinct blue or gray cast. This is often associated with lighter or blue eyes. A reddish or gray pigment around the eye rims, nose, and lips are also identified with this color. To indicate this coloring please list the predominant color first /blues/markings, etc

Black and Tan - predominantly black with tan markings over eyes, muzzle, chest, feet, and legs. May also have white markings.

Red and Tan - predominantly red with tan markings over eyes, muzzle, chest, feet, and legs. May also have white markings

Chocolate and Tan - predominantly chocolate with tan markings over eyes, muzzle, chest, feet, and legs. May also have white markings

Black - jet black to dull black

Liver - deep brown with red tones

Seal - appears black except has red or brown cast when viewed in sun or bright light

Gray - can be listed as light or dark

Brindle - a striped pattern of brown with black hairs over lighter colored coat or a striped pattern of lighter colored hairs over a darker colored coat. Please list underlying coat color first, then brindle. i.e.: fawn brindle, black brindle, etc

Ticked - darker hairs distributed in a diffuse pattern over a lighter colored coat. List the predominate color first.

UNACCEPTED TERMS TO DESCRIBE COLORS

Pied - comparatively large patches of two or more colors or parti-colored. List as patched with the predominate color first

Dudley nose - flesh colored nose, list as red nose

Silver - list as gray

Apricot - list as light red
