

STATEMENT FROM ADBA REGARDING DISCRIMINATION

Recently, it was brought to our attention that a sanctioned judge made an unforgivable comment on a public post on Facebook. A racial slur that should never be uttered in any setting, public or private, was used.

We here at the ADBA take this *very* seriously. Understand that we will not tolerate our representatives and affiliates using any hateful slurs that are racist or bigoted in nature. This type of behavior has serious consequences and has been addressed.
